Informational Text Features Task Cards

Use these 32 multiple choice Task Cards to help your students understand the different types of informational text features. In addition to the 32 question cards, there is also a Challenge Card that can be used with any other card in the set. The Challenge Card asks students to find an example of the text feature in a book from the classroom. A student answer sheet and answer key is also provided so students can check their work. The multiple choice format make these cards great for assessment and test prep. Use at centers, in pairs or small groups or with your entire class using a game like Scoot.

The cards will look best in color, but will also print out fine in grayscale. Simply print and cut along the guidelines. Laminate and use them again and again. Alternatively, you could print on cardstock. It works well to keep them in a baggie. Another option is to hole-punch a corner of each card and put them all on a ring.

This product addresses the following Common Core Standards:

RI.2.5. Know and use various text features (e.g., captions, bold print, subheadings, glossaries, indexes, electronic menus, icons) to locate key facts or information in a text efficiently.

RI.3.5. Use text features and search tools (e.g., key words, sidebars, hyperlinks) to locate information relevant to a given topic efficiently.

Note: This set was designed for teachers who are using the Common Core Standards. This same set is included in the zip file with term *Nonfiction Text* instead of *Informational Text* and without the Common Core Standards. Please be aware that the content on the cards is the same.

This resource was created by Rachel Lynette copyright 2012. It may be printed and photocopied by the original purchaser for single classroom and personal use only and may not be put on the internet, sold, or distributed in any form. Thank you for respecting the copyright.
