Name _____ Date _____

1. How many gifts did your true-love give you all together (count each gift just once, not multiple times for the many verses in the song)?

2. It seems that you are now the owner of many birds. How many birds do you have?

3. You will need to feed your birds. Each bird eats 3 worms every day. How many worms will you need each day to feed all of your birds?

4. Each Maid a-Milking comes with her own cow. It is cold out in December, so you decide to buy slippers for all the cows. How many cow slippers will you need?

5. Cow slippers cost \$2.50 a pair. How much money do you need to buy them?

6. You decide to sell the golden rings to the mailman for \$6 each. How much money did you make?

Do you have enough for the cow slippers?
