Set 1

29 Set 1

Find an equation that this input output table could represent.

x	y
1	6
2	18
3	30

Find an equation that this input output table could represent.

x	y
4	17
7	29
13	53

Find an equation that this input output table could represent.

x	y
---	---

Find an equation that this input

Set 2

29 Set 2

Finish filling out the input output table to represent the equation.

$$y = 12x - 6$$

x	y
1	?
?	18
?	30

Finish filling out the input output table to represent the equation.

$$y = 4x + 1$$

x	y
?	17
7	?
?	53

Finish filling out the input output table to represent the equation.

$$6x + 2 = y$$

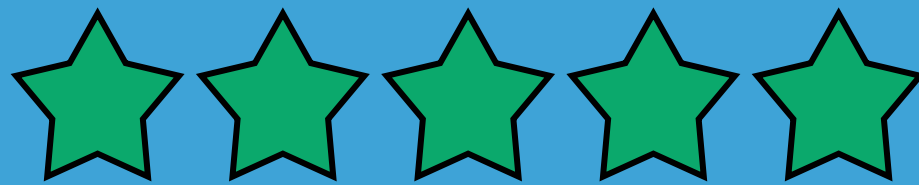

x	y
2	?
6	?
9	?

Finish filling out the input output table to represent the equation.

$$y = 11x - 10$$

x	y
?	12
3	?
5	?
